- Highly organized and efficient
- Creative minded professional
- Excellent time management skills

## PERSONAL PROJECTS/SCHOOL PROJECT

### **Student Council Monitoring System with SMS notification, Programmer**

#### *Thesis*

- Developed a Computer-Based Application using VB.NET Microsoft Access Database. The main function of the project is to monitor all transactions made by the student and the council during the school activities/programs/events. The app is able to send SMS for the purpose of notifying the student for meeting or any important matters for school. We used GSM modem to send an SMS message.

### **Student Information System, Programmer**

- Creating a desktop application for student record using C# and MySQL database. This application is able to provide relevant information about the student.

### **Employee Database Management System, Programmer**

#### *Freelance*

- Developed Employee Management System for *Carriaga Trader's Mart* using VB.Net with MySQL Database. The main function of the Application is to provide relevant information about the employee such as his/her employment history and allow the company to generate report for active/in-active employee/s.

---

## INTERNSHIP/EXPERIENCE

### **WINPOS Software Developer and Computer Services (April 2019 – May 2019)**

- *Handled troubleshooting and maintenance as well as monitoring and deployment of the System*

### **CEBU SKYLAND UNIVERSAL**

- *Working as a Software Engineer position for 3 months*
- *Assigned for front-end task for Public Information System using angular*
  - *This project is a web-based application using ASP.NET CORE (Backe-end) & ANGULAR (Front-End)*
